

SAFETY DATA SHEET

1. Identification

Product identifier LIQUID ELECTRICAL TAPE

Other means of identification

14201, 14205 **Product code** Recommended use Sealant. **Recommended restrictions** None known.

Manufacturer / Importer / Supplier / Distributor information

SEACHOICE PRODUCTS Company name **Address** 3131 N. Andrews Avenue Ext. Pompano Beach, Florida 33064

(954) 581-1188 Telephone General Information:

E-mail Not available. Not available. **Contact person**

Emergency phone number 24-Hour Emergency: CHEMTREC: (703) 527-3887

or (800) 424-9300

2. Hazard(s) identification

Physical hazards Flammable liquids Category 2 **Health hazards** Skin corrosion/irritation Category 2 Serious eye damage/eye irritation Category 2A Sensitization, skin Category 1

Carcinogenicity Category 2 Reproductive toxicity Category 2

Specific target organ toxicity, single exposure Category 3 respiratory tract irritation

Specific target organ toxicity, single exposure Category 3 narcotic effects

Specific target organ toxicity, repeated Category 2

exposure

Aspiration hazard Category 1

OSHA defined hazards Not classified.

Label elements

Signal word Danger

Hazard statement Highly flammable liquid and vapor. May be fatal if swallowed and enters airways. Causes skin

irritation. May cause an allergic skin reaction. Causes serious eye irritation. May cause respiratory irritation. May cause drowsiness or dizziness. Suspected of causing cancer, Suspected of damaging fertility or the unborn child. May cause damage to organs (Central nervous system)

through prolonged or repeated exposure.

Precautionary statement Prevention

Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Do not breathe dust/fume/gas/mist/vapors. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Contaminated work clothing must not be allowed out of the workplace.

LIQUID ELECTRICAL TAPE Issue date: 30-December-2013

917668SB-CCVersion #: 01 Revision date: -

Response

In case of fire: Use foam, carbon dioxide, dry powder or water fog for extinction. If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a poison center/doctor if you feel unwell. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Take off contaminated clothing and wash it before reuse. If skin irritation or rash occurs: Get medical advice/attention. If exposed or concerned: Get medical advice/attention.

Storage

Store in a well-ventilated place. Keep cool. Store locked up.

Disposal

Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)

Static accumulating flammable liquids

3. Composition/information on ingredients

Mixtures

Chemical name	CAS number	%	
Methyl ethyl ketone	78-93-3	15-40	
Vinyl chloride - vinyl acetate copolymer	9003-22-9	10-30	
Xylene	1330-20-7	10-30	
Acetone	67-64-1	5-10	
Ethylbenzene	100-41-4	1-10	
3,4-Epoxycyclohexane carboxylic acid (3,4-epoxycyclohexylmethyl) ester	2386-87-0	3-7	
Diethylene glycol dibenzoate	120-55-8	3-7	
2-Propenoic acid, 2-methyl-, 2methylpropyl ester, polymer with ethylbenzene and 2-ethylhexyl 2-propenoate	68240-06-2	1-5	
Carbon black	1333-86-4	1-5	
Talc	14807-96-6	1-5	
Toluene	108-88-3	<0.5	
loluene	108-88-3	<0	

Composition comments

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Inhalation

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Skin contact

Immediately flush with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention. If skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Eye contact

Ingestion

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.

Call a physician or poison control center immediately. Rinse mouth. Never give anything by mouth to an unconscious person. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Aspiration may cause pulmonary edema and

Most important symptoms/effects, acute and delayed

Irritation of eyes and mucous membranes. May cause allergic skin reaction. Vapors have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Causes damage to organs (central nervous system, kidney, liver, respiratory system) through prolonged or repeated exposure. May cause drowsiness or dizziness.

Indication of immediate medical attention and special treatment needed General information

Treat symptomatically. Symptoms may be delayed.

Get medical attention if symptoms occur. Wash contaminated clothing before re-use. Wash contaminated clothing before reuse. Discard any shoes or clothing items that cannot be decontaminated.

LIQUID ELECTRICAL TAPE SDS US

5. Fire-fighting measures

Suitable extinguishing media Unsuitable extinguishing

media

Water. Water spray. Foam. Dry powder. Carbon dioxide (CO2). Do not use a solid water stream as it may scatter and spread fire.

Specific hazards arising from

the chemical

Containers may explode when heated. Fire may produce irritating, corrosive and/or toxic gases.

Special protective equipment and precautions for firefighters

Not available.

Fire-fighting

Specific methods

equipment/instructions

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Withdraw immediately in case of rising sound from venting safety device or any discoloration of

tanks due to fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Eliminate all sources of ignition. Wear appropriate personal protective equipment (See Section 8).

Methods and materials for containment and cleaning up

Eliminate sources of ignition. Take precautionary measures against static discharge. Use water spray to reduce vapors or divert vapor cloud drift. Dike the spilled material, where this is possible. Prevent entry into waterways, sewers, basements or confined areas.

Avoid release to the environment.

Environmental precautions

7. Handling and storage

Precautions for safe handling

Keep away from sources of ignition - No smoking. Take precautionary measures against static discharges. Do not breathe gas/fumes/vapor/spray. Avoid contact with eyes, skin, and clothing. See Section 8 of the MSDS for Personal Protective Equipment. Avoid release to the environment.

Conditions for safe storage, including any incompatibilities Keep only in the original container in a cool, well-ventilated place. Do not handle or store near an open flame, heat or other sources of ignition. Store in a closed container away from incompatible materials. This material can accumulate static charge which may cause spark and become an ignition source. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Keep out of the reach of children.

8. Exposure controls/personal protection

Occupational exposure limits

Exposure guidelines

US - California OELs: Skin designation

Toluene (CAS 108-88-3) Can be absorbed through the skin.

Issue date: 30-December-2013

US - Minnesota Haz Subs: Skin designation applies

Toluene (CAS 108-88-3)

Skin designation applies.

Appropriate engineering

controls

Ensure adequate ventilation, especially in confined areas. Explosion-proof general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Hand protection Chemical resistant gloves are recommended. If contact with forearms is likely wear gauntlet style

gloves.

Other Wear chemical protective equipment that is specifically recommended by the manufacturer.

Respiratory protection If engineering controls do not maintain airborne concentrations below recommended exposure

limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA Standard 1910.134. Respirator type: Air-purifying respirator with an appropriate, government approved (where applicable), air-purifying filter, cartridge or canister. Contact health and safety professional

or manufacturer for specific information.

Thermal hazards Not available

General hygiene considerations

Handle in accordance with good industrial hygiene and safety practices. Always observe national occupational health and hygiene requirements including requirements for medical surveillance.

10. Stability and reactivity

Reactivity The product is non-reactive under normal conditions of use, storage and transport.

Chemical stability Material is stable under normal conditions. Possibility of hazardous Hazardous polymerization does not occur.

reactions

Conditions to avoid Heat, flames and sparks. High temperatures. Contact with incompatible materials. Incompatible materials Amines. Ammonia. Caustics. Isocyanates. Strong acids. Strong oxidizing agents.

Hazardous decomposition

products

No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Ingestion May be fatal if swallowed and enters airways.

Inhalation May be fatal if swallowed and enters airways. Vapors have a narcotic effect and may cause

headache, fatigue, dizziness and nausea. May cause irritation to the respiratory system.

Skin contact Causes skin irritation. May cause an allergic skin reaction.

Causes serious eye irritation. Eye contact

Symptoms related to the physical, chemical and toxicological characteristics Irritant effects. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and

4300 mg/kg

vomiting.

Information on toxicological effects

May be fatal if swallowed and enters airways. Harmful if inhaled or absorbed through skin. **Acute toxicity**

Causes serious eye irritation.

Not assigned. Respiratory sensitization

Skin sensitization May cause an allergic skin reaction.

Germ cell mutagenicity Not assigned.

Carcinogenicity Possible cancer hazard - may cause cancer based on animal data.

IARC Monographs. Overall Evaluation of Carcinogenicity

Carbon black (CAS 1333-86-4) 2B Possibly carcinogenic to humans.

LIQUID ELECTRICAL TAPE SDS US

Issue date: 30-December-2013 917668SB-CCVersion #: 01 Revision date: -

Ethylbenzene (CAS 100-41-4) 2B Possibly carcinogenic to humans. Talc (CAS 14807-96-6) 2B Possibly carcinogenic to humans.

3 Not classifiable as to carcinogenicity to humans. 3 Not classifiable as to carcinogenicity to humans. 3 Not classifiable as to carcinogenicity to humans.

Reproductive toxicity

Components in this product have been shown to cause birth defects and reproductive disorders in laboratory animals. Suspected of damaging fertility or the unborn child. Suspected of damaging fertility or the unborn child. Xylene has demonstrated animal effects of reproductive toxicity.

Specific target organ toxicity single exposure

Toluene (CAS 108-88-3)

Xylene (CAS 1330-20-7)

May cause respiratory irritation. May cause drowsiness or dizziness.

Specific target organ toxicity -

May cause damage to organs (Central nervous system) through prolonged or repeated exposure.

repeated exposure

Aspiration hazard May be fatal if swallowed and enters airways.

Chronic effects Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects. Causes

damage to organs through prolonged or repeated exposure.

12. Ecological information

Ecotoxicity An environmental hazard cannot be excluded in the event of unprofessional handling or disposal.

Components		Species	Test Results
